HONOLULU CHAUFFEUR IN COAST POLICE COURT

SAN FRANCISCO, September 13.—
"If I could have charged his automobile with highway robbery, I would have done it," exclaimed L. Zimmerman of 375 Golden Gate avenue indignantly yesterday when he took the witness stand in Police Judge Shortall's court to testify against Robert L. Hine, whom he had caused to be arrested on a charge of battery.

"I was clinging to the stanchion post on a crowded Market street car," said Zimmerman, "when Hine, driving his automobile, came along and pushed the machine through a narrow lane next to the car. The machine went so close to the car that a hook on the tonneau ripped my coat and vest, and grabbing hold of my suspenders pulled them out a yard and then let them snap back, almost knocking me from the car. My coat and vest and suspenders are ruined, and this is a new suit."

Hine, who is en route from Honolulu to New York, was very sorry and said he had gone very slow, but was trying to pass a blockade. He was willing to pay the damages to the clothes. Zimmerman finally agreed to accept \$20, and the case was dismissed.

COFFEE MARKET IS FIRM; PRICES RISING

A New York firm, writing on a large transaction in coffee in that market at advancing prices, says: "Brazil's firmness as to prices (probably justified by the smallness of the present crop) prevents a replenishing of the depleted stocks here and in Europe except at a heavy premium. The light stocks carried by the roasting or distributing trade in both countries at a time of the year when the maximum consumption of coffee faces them may invite an advance that will make what has occurred only a beginning. Should any strong general buying begin the real scarcity of coffee to meet it will be quickly apparent. Brazil holds the key to the situation, and is alive to the needs of the consuming markets. With less coffee than the world absolutely requires, her merchants naturally will insist upon the buyers paying full value."

Next Year Prices.

During September, 1908, the New York Coffee Exchange official quotation for No. 7 Rio coffee was 6 1-8c, and in September, this year, opened at 10c, a rise in two years of 3 7-8c per pound. This is a rise of over 63 per cent, and this, too, in the face of the fact that the visible supply September 1, 1908, was 15,080,241 bags and December, 1909, it had risen to 17,554,624 bags, but fell to 13,719,530 bags July 1, 1910. With no increase in the number of trees for several seasons, fears regarding the 1911-12 crop are boosting factors in the advance.

TEXAS REFINERY IS TO BE COMPLETE

NEW YORK, September 7.—The Texas Sugar Refining Company, which was recently incorporated with a capital stock of \$1,600,000, will erect a plant of steel and reinforced concrete construction. Garland B. Miller of Fairbairn, Texas, is interested, and his company, the Miller Bros. Company, says regarding the refinery: "The location is not yet definitely settled; Fort Arthur, Beaumont, Houston and Texas city are under consideration. The plant will convert foreign and domestic raw sugar into refined, particularly for Texas market. The plant will cost \$900,000; daily capacity, 2000 barrels; engineer, Eastwick Engineering Company, Ltd., 82 Beaver street New York."

"The enterprise will make possible development of very large sugar refining industry in Texas and on the east coast of Mexico, and will have great importance for Hawaii sugar planters."
